Fenwick Architectural Guidelines
APPLICATION FOR APPROVAL

*** This application, in duplicate, may be placed in the Fenwick mailbox and marked to the attention of Mindy Geist. You will receive one copy back along with the letter approving (or not) your project. You will be required to let us know when the project is completed, so it can be verified that the plans submitted was accurate. A maximum of 120 days are given to complete your project.

Name: _____
Address: _____
Telephone: _____
Email: _____

Date of Application: _____

Describe your project. Be sure to include size, location and materials used where applicable. Attach a drawing of the location in relationship to the residence.

The approval of this project is based on the current visibility of the project, along with the regular maintenance and upkeep. If the visibility is altered in any way, the project may no longer be acceptable. (ie. If a fence comes down and a structure becomes more visible)

If the project is acceptable, you will receive a letter stating that it has been approved by the Architectural Committee w/without variances and you will be requested to inform us upon its completion. A second letter will indicate a final approval. If the project is challenged at a later date, the letters will be your proof that it was approved to start and at its completion.
